🌐 [gleearl.github.io](https://gleearl.github.io)

I'm a frontend web developer and designer with five years of experience, passionate in creating all things for the web.

## Experience

### Development Engineer - Frontend Lead

Hurdman Communications Philippines  
December 2018 - May 2022

Responsible in the overall frontend development setup in our team.

- In-charge in setting up the frontend development using JavaScript, HTML5, CSS3 and SASS.
- Worked with the design team to implement prototypes into functioning and mobile responsive web UI.
- Launched multiple projects that helped the company grow.

### Jr. Web Designer

CML Mopro Philippines Incorporated  
April 2017 - October 2018

Worked with a team of designers and project managers in creating and publishing their online presence.

- Build landing pages, internal training websites, microsites, client websites, other online assets, and perform project revisions as required by the clients.
- Develop projects using HTML, CSS and JavaScript to the company's enterprise clients using Agile methodology.
- Tested sites in various devices and browsers to ensure cross-browser compatibility and mobile responsiveness.

### Software Developer Intern

Cebu Innosoft Solutions Incorporated  
May 2016 - December 2016

Worked with a team of interns under the Research and Development Department.

- Created a Task Management System (TMS) - an internal tool used in the company for handling their client request and customer service using ASP.NET framework, Web API, HTML, CSS and JavaScript.
- Maintained sites including our TMS by receiving feedbacks and improvement ideas.
